

Potion::Potion

```
graph LR; A[Potion::Potion] --> B[Potion::setPower]
```

A diagram illustrating a call from a class to a method. On the left, a gray rectangular box contains the text "Potion::Potion". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Potion::setPower". Both boxes have a thin black border.

Potion::setPower
